

The Sanskaar Valley School

Reading Along With Children

Keeping the love for reading and love for friends of her child, Ms. Shivhare decided to meet all students of Grade 3C during their library period.

She enthusiastically interacted with children and imparted knowledge regarding selection of book of one's choice by connecting the title to the illustration and reading the summary given at the back of the book. The session was made more interesting when she read aloud the book "BE THE CHANGE" by Arun Gandhi and Bethnay Hegedus.

Last but not the least she asked the children to do a thought provoking work sheet "See the change and be the Change."

We thank her and all parents who support school initiatives and collaborate with us in all our endeavors.
