

Costumes of the World

Activity in Prangan for Grade 4 & 5

7th April, Friday

We all believe that the technology has brought the entire world together and being Global citizens we regard the world as a Global village. Learning, teaching and being aware of what is happening around the world can be done in various ways and we at Prangan are going to make this learning a fun activity. There will be a lot of discussion, interaction, presentation, colour, humor and fun.

The best way to learn about a country is through its culture and tradition. Researching about the costumes gives us a broader picture of the lifestyle and rich heritage of that country.

The Costume presentation requires 3 main points Country it belongs to, the local name and a picture of it. It can be done in the following ways:-

- 1) The child has to come dressed up in that costume and speak about it.
- 2) In case your child cannot come dressed up, don't let him/her feel left out, he/she can bring a cut out on thermo coal sheet or a chart sheet and speak a few sentences on it.

Comestart searching and researching to know and learn about the different countries and the world in a different style. Although India is a part of the world we would appreciate if children choose anyone country out of the remaining 194 countries of the world.
